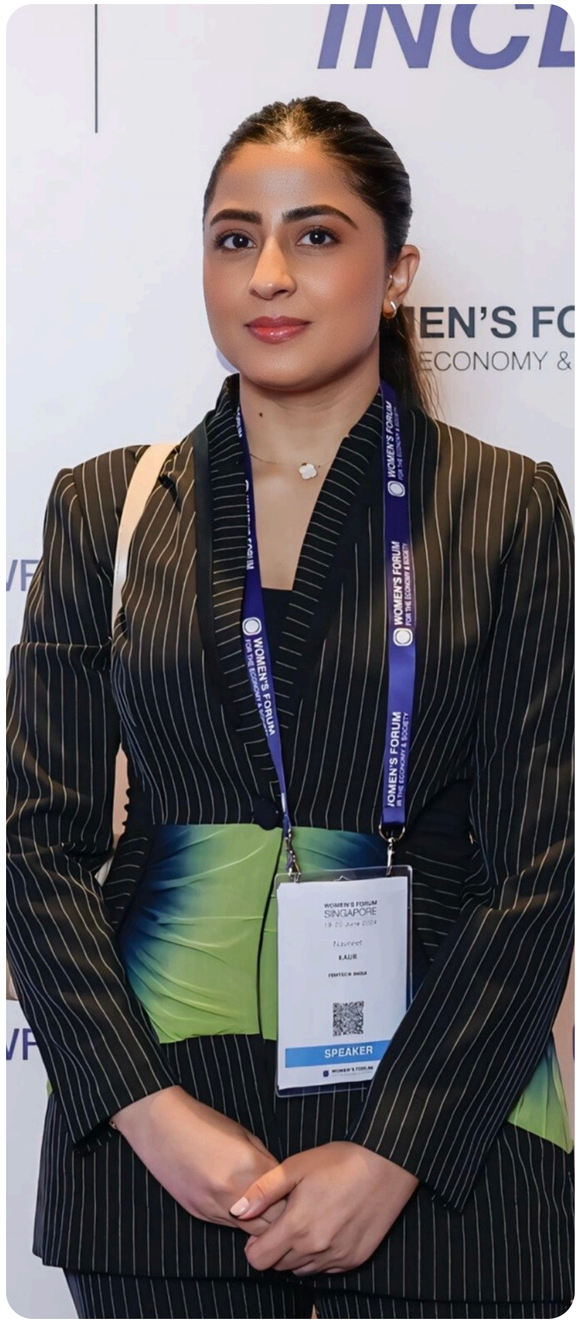
ECOSYSTEM FOR CHANGE



NAVNEET KAUR

Founder/CEO of
Femtech India

THIS IS OUR *STORY*

An Impact Maker is not just a title; it's a reflection of those who share our core values of trust, teamwork, and courage—driving action to improve women's health. Communities are the heart of progress. They bring people together, united by a shared mission to make a difference that extends beyond any individual.

In these supportive networks, ideas grow, and empathy thrives. Communities give individuals the power to raise their voices and make lasting changes in the world.

In last 2 years, we are proud to have over 270 Impact Makers working with us, each contributing in their own way. Together, we've reached and influenced more than 1.6 million people worldwide.

Entrepreneurs, mentors, partners, innovators, and ambassadors all play a vital role in this effort. FemTech India is a hub of innovation, unity, and resilience, showing us that together, we can achieve much more than we could alone.

THIS *REPORT*

is dedicated to every Impact Maker working to create a better world for women's health. No matter the size of your contribution, it matters. Together, we are building the future, and our shared efforts will shape the world. Before we continue, let's take a moment to look back and celebrate what we've achieved together.
